

Workers' Comp Medication Guide

Most Commonly Prescribed Drugs in Workers'
Compensation

GETTING STARTED

To use this Medication Guide flip to the next page where you'll find the **Table of Contents**. From there you can view a listing of therapeutic drug classes and click on the class or type of drug to link directly to that section.

You can also use the **Navigation Bar** found along the top of each page to easily click through to each section as well.

Within each section, drugs are listed alphabetically by Generic and Brand name.

Flip to the **Index** to see a full list of all Generic Drugs and a separate list of all Brand Name Drugs.

THE PURPOSE OF THIS GUIDE

This guide was developed by Healthsystems' Clinical Services Team as a resource for claims professionals and nurse case managers, providing easy and instant access to information about medications commonly prescribed to workers' comp patients.

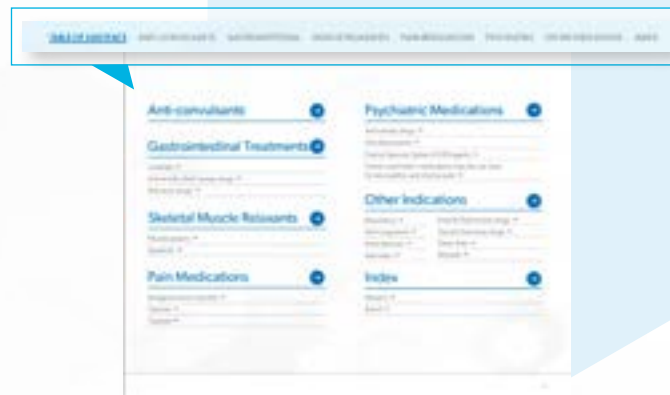

Entries in this guide include therapeutic class, brand name, generic name, and FDA-approved indication. Please note, inclusion in this guide should not be interpreted to suggest these medications are considered preferred or recommended by Healthsystems. Additionally, the relationship to compensable conditions is dependent upon the prescriber's explanations and the insurer's determinations.

This list is not intended to be all inclusive, but a list of medications prescribed often in the drug classes listed. The information provided here was compiled from official pharmaceutical manufacturers' package inserts. Every effort has been made to ensure the accuracy of the data presented is in the context of accepted medical practice. Practitioners should check specific details such as drug doses and contraindications, off-label uses, or other details in standard medical sources prior to clinical application.

The corresponding drug information was compiled as of 2022. For up-to-date medication information, please contact your Healthsystems account representative or clinical pharmacist at 866.646.2838.

Anti-convulsants

Medications to reduce or prevent seizures

Anti-convulsants

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Clonazepam Tab	Klonopin®	Lennox-Gastaut syndrome (petit mal variant), akinetic and myoclonic seizures; panic disorder
Gabapentin Cap or Tab	Neurontin® Gralise® Horizant®	Adjunct for partial seizures; postherpetic neuralgia (PHN)
Pregabalin Cap	Lyrica®	Neuropathic pain associated with diabetic neuropathy, fibromyalgia, adjunct therapy for partial onset seizures, postherpetic neuralgia (PHN), neuropathic pain associated with spinal cord injury
Topiramate Tab	Topamax®	Epilepsy with partial onset or primary generalized tonic-clonic seizures; migraine prophylaxis, and adjunct therapy for patients with seizures associated with Lennox-Gastaut syndrome

Gastrointestinal Treatments

Antacids, laxatives and anti-nausea products

May include:

- ▶ Anti-emetic/Anti-nausea drugs
- ▶ Anti-ulcer drugs
- ▶ Laxatives

Anti-emetic/Anti-nausea

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Ondansetron HCL Tab Ondansetron Tab Disintegrating	Zofran® Zofran ODT®	Prevention of nausea/vomiting (N/V) associated with highly emetogenic cancer chemotherapy; N/V associated with initial and repeat courses of moderately emetogenic cancer chemotherapy; N/V associated with radiotherapy in patients getting either total body irradiation, single high-dose fraction to the abdomen, or daily fractions to the abdomen; postoperative N/V

Anti-ulcer

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Esomeprazole Magnesium Delayed-Release Cap	Nexium® Nexium OTC®	Short-term treatment in the healing of erosive esophagitis (EE), maintenance of healing of EE, short-term treatment of heartburn and other symptoms associated with gastroesophageal reflux disease (GERD), risk reduction of NSAID-associated gastric ulcers, hypersecretory conditions (e.g., Zollinger-Ellison syndrome), H. pylori eradication in combination with other medications
Omeprazole Delayed-Release Cap	Prilosec® Prilosec® OTC	Short-term treatment of active duodenal ulcer, short-term (4-8 weeks) treatment & maintenance of healing erosive esophagitis, short-term (4-8 weeks) treatment of active benign gastric ulcer, H. pylori eradication in combination with other medications, heartburn and other symptoms associated with gastroesophageal reflux disease (GERD), hypersecretory conditions (e.g., Zollinger-Ellison Syndrome)
Pantoprazole Sodium Delayed-Release Tablet	Protonix®	Short-term treatment of erosive esophagitis (EE) associated with gastroesophageal reflux disease (GERD), maintenance of healing of EE, hypersecretory conditions (Zollinger-Ellison Syndrome)

Laxative

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Docusate Sodium Cap	Colace®	Constipation
Naloxegol Oxalate Tab	Movantik®	Opioid-induced constipation (OIC) in adult patients with chronic non-cancer pain

Skeletal Muscle Relaxants

Medications used for short-term relief of muscle spasms

May be used to treat:

- Muscle spasms

Muscle Relaxants

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Baclofen Tab	Lioresal®	Spasticity from multiple sclerosis (particularly for the relief of flexor spasms), spinal cord injury, and other spinal cord diseases injury and other spinal cord diseases
Carisoprodol Tab	Soma®	Relief of discomfort associated with acute, painful musculoskeletal conditions (up to 2-3 weeks)
Cyclobenzaprine HCl Tab	Flexeril®	Adjunct therapy for muscle spasm associated with acute, painful musculoskeletal conditions (up to 2-3 weeks). Not effective in the treatment of spasticity or cerebral palsy
Metaxalone Tab	Skelaxin®	Adjunct therapy for discomforts associated with acute, painful musculoskeletal conditions
Methocarbamol Tab	Robaxin®	Adjunct therapy for discomforts associated with acute, painful musculoskeletal conditions
Tizanidine HCl Cap or Tab	Zanaflex®	For the short-term relief of spasticity, reserved for daily activities and times when the relief of spasticity is most important

**Muscle relaxants are only recommended for intermittent use and should not be used for more than 21 days*

Pain Medications

A wide variety of medications to relieve pain, including opioids, acetaminophen, NSAIDs, numbing agents and other classes of drugs

May include:

- ▶ Analgesics (non-narcotic)
- ▶ Opioids
- ▶ Topicals

Analgesics (non-narcotic)

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Acetaminophen Tab	Tylenol®*	Mild to moderate pain
Aspirin Delayed Release Tab	Aspirin* Durlaza®	For the temporary relief of minor aches and pains
Celecoxib Cap	Celebrex®	Ankylosing spondylitis, primary dysmenorrhea, acute pain, osteoarthritis (OA), rheumatoid arthritis (RA), juvenile rheumatoid arthritis in patients 2 years or older, familial adenomatous polyposis
Diclofenac Sodium Delayed Release Tab	Voltaren®	Osteoarthritis (OA), rheumatoid arthritis (RA), ankylosing spondylitis
Etodolac Tab	Lodine®	Acute and long-term management of osteoarthritis or rheumatoid arthritis, and for the management of acute pain
Ibuprofen Tab	Advil®* Motrin®*	Dental pain, menstrual cramps, fever, headache, mild to moderate pain, osteoarthritis (OA), rheumatoid arthritis (RA), back pain, muscle pain
Meloxicam Tab	Mobic®	Juvenile rheumatoid arthritis, osteoarthritis (OA), rheumatoid arthritis (RA)
Nabumetone Tab	Relafen®	Osteoarthritis (OA), rheumatoid arthritis (RA)
Naproxen Tab	Aleve®* Anaprox Naprosyn®	Ankylosing spondylitis, bursitis, primary dysmenorrhea, acute gout, juvenile arthritis, pain, osteoarthritis (OA), rheumatoid arthritis (RA), tendonitis

*Available over the counter (OTC)

Opioids

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Acetaminophen w/ Codeine Tab	Tylenol #3® with Codeine	Mild to moderate pain
Buprenorphine HCl Film	Belbuca®	For the management of pain severe enough to require daily, around-the-clock, long-term opioid treatment and for which alternative treatment options are inadequate
Buprenorphine Patch Weekly	Butrans®	Management of severe pain that requires daily, around-the-clock (ATC), long-term opioid treatment for which alternative treatment options are inadequate
Fentanyl Patch 72 Hour	Duragesic®	Persistent, moderate to severe chronic pain in opioid-tolerant patients, that requires continuous, around-the-clock (ATC) opioid administration for an extended period of time and can't be managed by other means such as non-steroidal analgesics, opioid combination products or immediate-release opioids
Hydrocodone- Acetaminophen Tab	Lortab® Norco® Vicodin®	For the treatment of moderate to severe pain when alternative treatments are inadequate
Hydromorphone HCl Tab	Dilaudid®	For the management of pain severe enough to require an opioid analgesic and for which alternative treatments are inadequate
Methadone HCl Tab	Dolophine®	Moderate to severe pain not responsive to non-narcotic analgesics, detoxification treatment of opioid addiction, maintenance treatment of opioid addiction in conjunction with appropriate social/medical services
Morphine Sulfate Extended Release Tab	MS Contin®	Management of moderate to severe pain requiring continuous, around-the-clock (ATC) opioid therapy for an extended period of time

Opioids

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Oxycodone HCl ER 12 Hour Abuse-Deterrent Tab	Oxycontin®	Chronic severe pain in patients who require daily, around-the-clock (ATC), long-term opioid treatment. Extended-release oxycodone should be reserved for patients in whom alternative treatment options (e.g., non-opioid analgesics or immediate-release opioids) are ineffective, not tolerated, or would otherwise provide inadequate pain management
Oxycodone HCl Tab	Roxicodone® Oxaydo®	Moderate to moderately-severe pain
Oxycodone w/ Acetaminophen Tab	Endocet® Percocet®	Moderate to moderately-severe pain
Tapentadol HCl Tab	Nucynta®	Relief of moderate to severe acute pain in patients 18 years or older
Tapentadol HCl Tab ER 12 Hour	Nucynta ER®	Pain severe enough to require daily around-the-clock (ATC), long-term opioid treatment and for which alternative treatment options are inadequate; neuropathic pain associated with diabetic peripheral neuropathy (DPN) in adults that meets the above criteria for severe pain
Tramadol HCl Extended Release 24 Hour Tab	Ultram® ER	Moderate to moderately-severe chronic pain in adults requiring around-the-clock (ATC) treatment for an extended period of time
Tramadol HCl Tab	Ultram®	Moderate to moderately-severe pain

Topicals

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Diclofenac Epolamine Patch	Flector Patch®	Topical treatment of acute pain due to minor strains, sprains and contusions
Diclofenac Sodium Gel	Solaraze®	Topical treatment of actinic keratoses
Diclofenac Sodium Gel	Voltaren*	For the relief of the pain of osteoarthritis of joints amenable to topical treatment, such as the knees and those of the hands
Diclofenac Sodium Solution	Pennsaid®	Treatment of signs and symptoms of osteoarthritis (OA) of the knee
Lidocaine Ointment and Cream*	Xylocaine®	Relief of pain associated with postherpetic neuralgia (PHN) and temporary relief of pain associated with minor burns and abrasions of the skin
Lidocaine Patch	Lidoderm® ZTlido®	Relief of pain associated with postherpetic neuralgia (PHN)
Lidocaine-Menthol Patch	Lidopatch®	Temporary relief of minor pain associated with arthritis, simple backache, bursitis, tendonitis, muscle strains and bruises.

*Available over the counter (OTC)

Psychiatric Medications

Medications to treat mood or behavior disorders, including anti-depressants, anti-anxiety medications, and drugs to help with mental alertness

Psychiatric Medications can include:

- ▶ Anti-anxiety drugs
- ▶ Anti-depressants
- ▶ Certain psychiatric medications may also be used for neuropathic and chronic pain

Anti-anxiety*

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Alprazolam Tab	Xanax® Xanax XR®	Anxiety disorders, panic disorders
Buspirone	BuSpar®	Management of anxiety disorders or the short-term relief of the symptoms of anxiety
Diazepam Tab	Valium®	Short-term relief of anxiety symptoms (up to 4 months); acute alcohol withdrawal; adjunct for muscle spasm, spasticity secondary to disorders such as cerebral palsy or paraplegia, adjunct in convulsive disorders, athetosis, stiff-man syndrome
Lorazepam Tab	Ativan® Loreev XR®	Anxiety disorders or the short-term relief the symptoms of anxiety or anxiety associated with depressive symptoms

*Anti-anxiety medications are recommended for short-term use only.

Anti-depressant

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Amitriptyline HCl Tab	Elavil®	Relief of symptoms of depression, endogenous depression
Aripiprazole Tab	Abilify®	Schizophrenia, acute treatment of manic and mixed episodes associated with bipolar I, adjunctive treatment of major depressive disorder (MDD), irritability associated with autistic disorder, treatment of Tourette's disorder
Bupropion HCl Extended Release 24 Hour Tab	Wellbutrin® Forfivo XL®	Major depressive disorder (MDD), seasonal affective disorder
Duloxetine HCl Delayed Release Particles Cap	Cymbalta®	Major depressive disorder, generalized anxiety disorder (GAD), diabetic peripheral neuropathic pain (PNP), fibromyalgia, chronic musculoskeletal pain

Anti-depressant

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Escitalopram Oxalate Tab	Lexapro®	Major depressive disorder (acute and maintenance), acute treatment of generalized anxiety disorder (GAD)
Mirtazapine Tab	Remeron®	Major depressive disorder
Nortriptyline HCl Cap	Pamelor® Aventyl®	Symptoms of depression, endogenous depression
Quetiapine Fumarate Tab	Seroquel®	Schizophrenia, bipolar I disorder manic episodes, bipolar disorder depressive episodes, and the adjunctive treatment of major depressive disorder (MDD)
Sertraline HCl Tab	Zoloft®	Major depressive disorder (MDD), obsessive compulsive disorder (OCD), panic disorder (PD), post-traumatic stress disorder (PTSD), premenstrual dysphoric disorder (PMDD), social anxiety disorder (SAD)
Trazodone HCl Tab	Desyrel®	Major depressive disorder (MDD)
Venlafaxine HCl Venlafaxine HCl Extended Release	Effexor® Effexor XR®	Major Depressive Disorder (MDD), Generalized Anxiety Disorder (GAD), Social Anxiety Disorder (SAD), and Panic Disorder (PD) with or without agoraphobia

Other Indications

Additional medications commonly prescribed to injured workers include:

- ▶ Respiratory
- ▶ Anti-coagulants
- ▶ Anti-infectives
- ▶ Anti-virals
- ▶ Erectile Dysfunction drugs
- ▶ Opioid Overdose drugs
- ▶ Cardiovascular drugs
- ▶ Sleep Aids
- ▶ Steroids

Respiratory

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Albuterol Sulfate Aerosol Solution	Proventil® HFA ProAir® HFA Ventolin® HFA	For the treatment or prevention of bronchospasm with reversible obstructive airway disease and the prevention of exercise-induced bronchospasm
Promethazine Hcl Tablet	Phenergan®	For the treatment of perennial and seasonal allergic rhinitis, vasomotor rhinitis, allergic conjunctivitis due to inhalant allergens and foods, amelioration of allergic reactions to blood or plasma, and for other respiratory or allergic conditions

Anti-coagulant

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Apixaban Tab	Eliquis®	Reduce risk of stroke and systemic embolism in nonvalvular atrial fibrillation, prophylaxis of deep vein thrombosis (DVT), treatment of DVT, treatment of pulmonary embolism (PE), reduction in risk of recurrent DVT and/or PE
Rivaroxaban Tab	Xarelto®	Reduce the risk of stroke and systemic embolism in patients with nonvalvular atrial fibrillation; treatment of deep vein thrombosis (DVT), pulmonary embolism (PE), and reduction in risk of recurrence of DVT and of PE; prophylaxis of DVT which may lead to PE in patients undergoing knee or hip replacement surgery

Anti-infective

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Amoxicillin and Clavulanate Potassium Tab	Augmentin®	For the treatment of infections caused by susceptible strains of lower respiratory tract infection, otitis media, sinusitis, skin and skin structure infections, and urinary tract infections
Sulfamethoxazole-Trimethoprim Tab	Bactrim®	Chronic obstructive pulmonary disease (COPD) exacerbation, acute otitis media, pneumocystis pneumonia, shigellosis, traveler's diarrhea, urinary track infection (UTI)
Cephalexin Cap	Keflex®	Respiratory tract infection (RTI) caused by <i>S. pneumoniae</i> and <i>S. pyogenes</i> ; otitis media caused by <i>S. pneumoniae</i> , <i>H. influenzae</i> , <i>S. aureus</i> , <i>S. pyogenes</i> and <i>M. catarrhalis</i> ; skin and skin structure infections caused by <i>S. aureus</i> and <i>S. pyogenes</i> ; bone infection caused by <i>S. aureus</i> and <i>P. mirabilis</i> ; genitourinary tract infections including acute prostatitis caused by <i>E. coli</i> , <i>P. mirabilis</i> , and <i>K. pneumoniae</i>

Anti-viral

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Emtricitabine-Tenofovir Disoproxil Fumarate Tab	Truvada®	Treatment of human immunodeficiency virus (HIV)-1 infection, HIV-1 Pre-Exposure Prophylaxis (PrEP)

Erectile Function

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Tadalafil Tab	Cialis®	Erectile dysfunction (ED), signs and symptoms of benign prostatic hyperplasia (BPH)
Sildenafil Tab	Viagra®	Erectile dysfunction (ED)

Opioid Overdose

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Naloxone	Narcan® Nasal Spray Kloxxado® Nasal Spray	For the treatment of opiate agonist overdose and opiate agonist-induced respiratory depression. May be prescribed to patients prescribed opioids or in patients with opioid use disorder (OUD) in the event of opioid overdose

Cardiovascular Drugs

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Atorvastatin Calcium Tab	Lipitor®	Hyperlipidemia and the prevention of cardiovascular disease in patients without clinically evident coronary heart disease, but with multiple risk factors for coronary heart disease. Prevention of cardiovascular disease in patients without clinically evident coronary heart disease, but with multiple risk factors for coronary heart disease
Metoprolol Succinate Extended Release Tab	Toprol XL®	Treatment of hypertension (alone or in combination with other antihypertensive agents), long-term treatment of angina pectoris, the treatment of stable and symptomatic heart failure of ischemic or cardiomyopathic origin Myocardial infarction, early treatment and secondary prevention

Sleep Aids

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Eszopiclone Tab	Lunesta®	Insomnia
Zolpidem Tartrate Tab	Ambien®	Insomnia characterized by difficulty with sleep onset and/or sleep maintenance

Steroids

Generic	Brand	FDA-Approved Indications From Manufacturers' Package Inserts
Methylprednisolone Tablet Therapy Pack	Medrol®	Anti-inflammatory or immunosuppressive agent for certain allergic, dermatologic, gastrointestinal, hematologic, ophthalmologic, nervous system, renal, respiratory, rheumatologic, endocrine, collagen, or specific infectious diseases/conditions and organ transplantation, for palliation of certain neoplastic conditions
Prednisone Tab	Deltasone® Prednisone® Sterapred®	Multiple inflammatory conditions including but not limited to various forms of arthritis, edematous states, dermatitis, drug hypersensitivity, incapacitating allergic conditions, asthma, chemotherapy, treatments of cancers and leukemias, endocrine disorders, rheumatic disorders, collagen diseases, dermatologic diseases, ophthalmic diseases, respiratory diseases, hematologic disorders, neoplastic diseases, edematous states, gastrointestinal diseases, acute exacerbations of multiple sclerosis
